Introduction

Digital's Hardware Documentation Kit Handbook is designed to support Digital's current, high-volume products. The handbook contains ordering numbers and information for hardware documentation, diagnostic listings and media. The handbook is divided into four distinct sections. Section I supports option level kits; Section II supports packaged systems; Section III supports Multi-media diagnostics for PDP-11; Section IV supports Vax Family diagnostics. The Table of Contents lists products by their option designation, while the Index sorts by Kit Number.

Packaged System Matrices (Section II) have been designed for each processor type within the PDP-11 and VAX Families. The left hand margin of each matrix lists the Package System Designation alphabetically. The kit numbers run across the top of the matrix. To use the matrix, simply scan the left margin for the desired Package Designation and select the kits which are checked on the grid. The contents of these kits may be reviewed by locating the appropriate kit in Section I.

The Multi-media Diagnostics Grid, located in Section III is an aid for the PDP-11 user. Each grid allows you to select diagnostic software for your system on any loading media available. Ordering part numbers for listings and media are provided for your convenience. For further details describing the use of the grid refer to the introduction of Section III on page 67.

This edition of the Hardware Documentation Kit Handbook contains a new feature - VAX

Diagnostics. The diagnostics for the VAX Family differ from the PDP-11 diagnostics in that they are licensed products. For a detailed explanation of the products and ordering procedures, refer to the introduction of Section IV located on page 159.

The amount and types of documentation available for the individual devices may vary depending upon the complexity and application of the device. The advantage of kitting these documents is two-fold: 1) It simplifies ordering by reducing the number of line items, and 2) it often reduces expense, since many kits are priced below the sum of their loose piece prices. All prices for documentation and diagnostics, in either kit form or loose piece, may be found in Digital's Accessories and Supplies Group Price List.

If you are interested in loose piece hardware documentation, or if you are unable to locate a kit for a device which you support, you should consider using the Digital Accessories and Supplies Group **Documentation Products Directory**. If you do not receive the directory, you may place yourself on the distribution list by using the convenient form located in the back of this handbook.

Orders may be placed through your local Digital Sales Office. In the Continental U.S. and Puerto Rico, orders may also be placed by calling toll free 800-258-1710. When ordering, please provide the Kit Part Number and Kit Name.

More detailed ordering information begins on page iii.

How to Order

ARGENTINA

Digital Approved Distributor
Coasin Computacion
Moreno 490
Buenos Aires 1091
Argentina

Telephone: (54)-(1)-330290

Diagnostic Kits

the people's life

INTRODUCING THE MULTI-MEDIA DIAGNOSTICS GRID

DIGITAL has traditionally offered diagnostic software on papertape. Over the years the use of papertape readers has declined and magnetic media has grown in popularity for loading diagnostics. Although DIGITAL'S diagnostics were also available on various media, it was a cumbersome task to cross-reference part numbers from media to media. The multi-media diagnostics grid will alleviate any confusion associated with locating diagnostic software on various media.

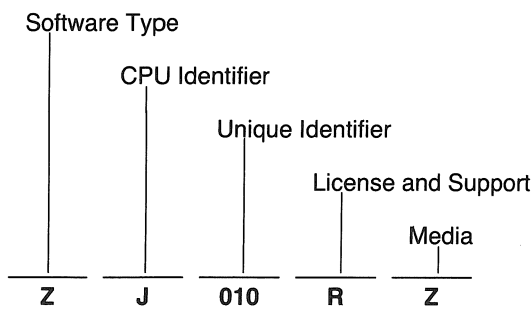

To utilize the grids a basic understanding of DIGITAL'S part numbering scheme is necessary. The "five - two" numbering scheme is used for diagnostic kits; the "two - five - two" numbering scheme is used to identify loose piece diagnostic components such as disks, magtapes, etc.

The following illustrations explain both numbering schemes in detail.

The 5-2 Numbering Scheme

The format for diagnostic kit model numbers is as follows (5-2 number):

Example:

Software Type ZJ010-RZ

- Q System Software
- Z Diagnostic Software

CPU Identifier ZJ010-RZ

- D VAX-11/750
- E VAX-11/780
- F PDP-8
- J PDP-11
- P PDP-11/40 or higher
- R PDP-11/45 or higher

Unique Identifier ZJ010-RZ

The unique identifier will be numerical characters.

License and Support ZJ010-RZ

This single character indicates whether or not a license is required.

- C Binary License, no support
- D License only
- F Microfiche
- P No License, Binaries only
- R No License, Binaries Documentation

Media ZJ010-RZ

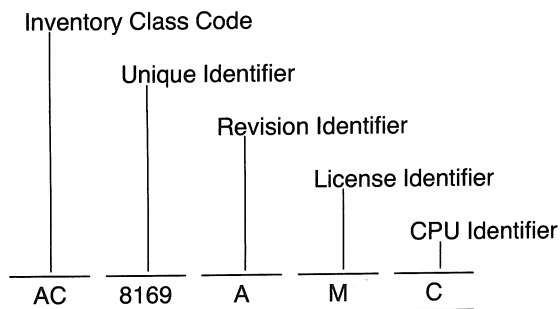

This single character identifies the distribution media. The following codes are assigned:

- A Linctape
- B Papertape
- C Dectape
- D 9 Track Magtape, 800 BPI, 600 ft
- E RK05 Disk Cartridge
- F 7 Track Magtape, 800 BPI, 600 ft
- G TU58 Dectape II Cartridge
- H RL02 Disk Cartridge
- M 9 Track Magtape, 1600 BPI, 2400 ft
- P 9 Track Magtape, 800 BPI, 2400 ft
- Q RL01 Disk Cartridge
- R Microfiche
- T RK06 Disk Cartridge
- V RK07 Disk Cartridge
- X RX02 Floppy Diskette
- Y RX01 Floppy Diskette
- Z No Hardware Dependency

The 2-5-2 Numbering Scheme

The format for the DIGITAL standard numbering system is as follows (2-5-2 number):

Example:

Inventory Class Code AC-8169A-MC

The inventory class code has been defined as MEDIA designation. The diagnostic media designations are:

AC	Listing/Document	AS	RX01 Floppy Diskette
AH	Microfiche	AT	Card Deck
AK	Papertape	AX	RL01 Disk Cartridge
AL	Dectape and Lintape	AY	RK07 Disk Cartridge
AM	RK06 Disk Cartridge	BA	RX02 Floppy Diskette
AN	RK05 Disk Cartridge	BB	1600 BPI Magtape
AP	800 BPI Magtape	BC	RL02 Disk Cartridge
AR	TU60 Cassette	BE	TU58 Dectape

Unique Identifier AC-8169A-MC

The unique identifier will be alphanumeric.

Revision Identifier AC-8169A-MC

The revision identifier will be a single alpha character and will be changed each time the component is revised.

License Identifier AC-8169A-MC

This single identifier indicates whether the software is restricted or non-restricted, and whether or not a license is required.

- D Diagnostic Software, license required
- M Diagnostic Software, no license required
- Y Diagnostic Software, restricted distribution

CPU Identifier AC-8169A-MC

This single character will indicate the central processor unit on which the software is used.

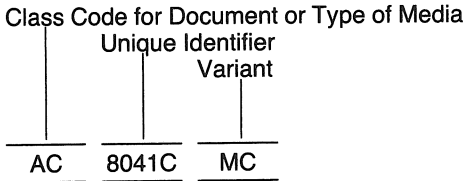

- A PDP-8
- C PDP-11
- E VAX
- J PDP-9/15/XVM
- K Cross Product Line
- N PDP-14
- P PDP-12
- 1-9 Patch Level

HOW TO USE DIAGNOSTIC GRID

The ordering part number is made up of three distinct parts:

- 1) Class Code 2) Unique Identifier 3) Variant

Example:

For purposes of eliminating redundancy and to promote the ease of using the diagnostic grid, we have listed the class code and variant at the top of each column and listed only the Unique Identifier which changed for each line.

Example: Doc. Part #
 AC MC

To order the document for CFKAAC0, 11/34 Basic Inst. Test, order part #AC-8041C-MC

CFKAAC0 8041C

VAX DIAGNOSTIC KITS

VAX diagnostic kits are available to support the maintenance of standard VAX CPU's and peripheral devices.

All licensed binary software, including subsequent updates, are furnished under Digital's standard terms and conditions of sale which provide that the software may be used only on the single CPU on which the software is first installed.

VAX CPU ownership is a prerequisite to purchase of a licensed VAX diagnostic kit.

Diagnostic kits are provided in two licensed configurations to support the maintenance of multiple end-user systems.

An initial license kit, ZXXXX-CX, is required for the first VAX CPU to be maintained, using the diagnostic kit. This kit includes the single-use license and binaries on media.

A copy license, ZXXXX-DZ, is required for each additional CPU to be maintained, using the diagnostic software previously obtained in the initial license kit, ZXXXX-CX. No binaries are included.

Licensed VAX diagnostic kits support specific CPU models and are not interchangeable among the various VAX CPU's because of significant differences in those CPU's. Therefore, the first CPU of each model type requires an initial licensed kit, ZXXXX-CX, and a copy license, ZXXXX-DZ, for each additional CPU of the same model type to be maintained, using diagnostic software.

VAX diagnostics are provided within two distinct sets based upon diagnostic function:

Microdiagnostics (extended) set - provide fault detection and isolation of hardware failures with the CPU and memory

Basic diagnostic set - provides functional level diagnostics for the CPU and standard peripheral devices

Each set is provided in an individually licensed kit configuration. Both diagnostic sets are required to fully maintain a standard VAX system.

VAX-11/780 Diagnostics

VAX 11/780 diagnostic software is available to self-maintenance customers as two diagnostic sets.

VAX-11/780 Microdiagnostic Extended Set - provides fault detection and isolation within the CPU, Floating Point, and Memory.

VAX-11/780 Microdiagnostics Extended Kit

P/N	Description
ZE014-CY	Single-use license, binaries on RX01 floppy disk, no documentation (Listings), No support services. Prerequisite: Customer-owned VAX-11/780 CPU
ZE014-DZ	Single-use license, no media, no documentation (Listings), No support services. Prerequisite: ZE014-CY

VAX-11/780 Basic Diagnostic Set - provides functional diagnostics for the complete VAX-11/780 system and standard peripherals.

VAX-11/780 Basic Diagnostics Kit

P/N	Description
ZE100-CM	Single-use license, binaries on 1600 BPI magnetic tape, No documentation (Listings), No support services. Prerequisite: Customer-owned VAX-11/780 CPU
ZE100-CY	Single-use license binaries on RX01 floppy diskette, No documentation (Listings), No support services. Prerequisite: Customer-owned VAX-11/780 CPU
ZE100-DZ	Single-use license only, No binaries, No documentation (Listings), No support services. Prerequisite: ZE100-CM or ZE100-CY

VAX-11/750 Diagnostics

VAX-11/750 Diagnostic software is provided to self maintenance customers as two diagnostic sets.

VAX-11/750 Microdiagnostics set - Provide fault detection and isolation at the micro level within the CPU and memory. The VAX-11/750 microdiagnostic software is unique whereas it is hardware dependent. A diagnostic module, L0006-YA, is required to load the micro-diagnostic program into the VAX-11/750. The L0006-YA module is not available separately. A VAX-11/750 Diagnostic maintenance starter kit, KC750-FA, is available which includes the prerequisite license, ZE026-CG, and the L0006-YA diagnostic module. A VAX-11/750 Diagnostic maintenance Add-on Kit, KC750-FB, is also available which includes a "DZ" license, ZE026-DZ, and a L0006-YA diagnostic module (Prerequisite is the KC750-FA kit).

P/N	Description
KC750-FA	VAX-11/750 self-maintenance starter kit.
Kit Components:	Description
L0006-YA	Diagnostic module (Note 1)
L9101	Extender module
ZE026-CG	Single-use License, binaries on TU58 media, No documentation (Listings), No support services. Prerequisite: Customer owned VAX-11/750 CPU
EK-750YA-RM	VAX-11/750 Microdiagnostic Reference Guide
EK-750YA-UG	VAX-11/750 Self Maintenance Diagnostic Guide

VAX-11/750 Microdiagnostic License Only

P/N	Description
ZE026-DZ	Single-use license only, No binaries, No documentation, (Listings), No support services.
Note: This license is available for customers not requiring additional L0006-YA diagnostic modules. Prerequisite: KC750-FA	
P/N	Description
KC750-FB	VAX-11/750 Self-Maintenance Add-on Kit
Kit Components:	
L0006-YA	Diagnostic module (Note 1)
ZE026-DZ	Single-use license only, No binaries, No documentation (Listings), No support services. Prerequisite: KC750-FA
EK-750YA-RM	VAX 11/750 Micro Diagnostic Reference Guide
EK-750YA-UG	VAX 11/750 Self Maintenance Diagnostic Guide
EK-VX11D-UG	VAX Diagnostic System User Guide
EK-VXD75-UG	VAX 11/750 Diagnostic System Overview

Note 1:
Always sold as part of a total kit. It is not available
separately.

VAX-11/750 Basic Diagnostics

VAX-11/750 Basic Diagnostic set is a package of functional level diagnostic programs that supports standard VAX-11/750 system hardware and peripherals. Included are: VAX Diagnostic Supervisor (VDS); functional level diagnostics; Exerciser, and device drivers.

VAX-11/750 Basic Diagnostic Kit

P/N	Description
ZD101-CG	Single-use license, Binaries on TU58 media, No documentation (Listings), No support services. Prerequisite: Customer-owned VAX-11/750 CPU
ZD101-CM	Single-use license, binaries on 1600 BPI magtape, No documentation (Listings), No support services. Prerequisite: Customer-owned VAX 11/750 CPU
ZD101-DZ	Single-use license only, No binaries, No documentation (Listings), No support services. Prerequisite: ZD101-CG or ZD101-CM

VAX-11/730 Diagnostics

VAX-11/730 Diagnostic software is provided to support two self maintenance environments; complete VAX-11/730 system configurations and peripherals; and the CPU only.

VAX-11/730 Microdiagnostics - detect and isolate faults at the module level within the CPU, Floating Point Accelerator (FPA), Integrated Disk Controller (IDC), and Memory only. It does not support peripheral devices.

VAX-11/730 Diagnostic Set - provides a complete micro and macro diagnostic software set that includes functional level tests for the CPU and peripheral devices as well as fault detection and isolation at the module level within the CPU, FPA, IDC and memory. VAX-11/730 micro and macro diagnostic software is provided as a complete set to fully support Customer Runnable Diagnostics (CRD's) on the VAX-11/730. The Customer Runnable Diagnostic feature is a simplified operator interface that sequentially runs the micro and macro diagnostic programs.

This diagnostic software product is primarily intended for a complete VAX-11/730 system configuration.

VAX-11/730 Microdiagnostic Kit

P/N	Description
ZC030-CG	Single-use license binaries on TU58 media, No documentation, (Listings), No support services. Prerequisite: Customer-owned VAX-11/730 CPU.
ZC030-DZ	Single-use license only, No binaries, No Documentation (Listings), No support services. Prerequisite: ZC030-CG

VAX-11/730 Diagnostic Set

P/N	Description
ZC100-CH	Single-use license, binaries on RL02 and TU58 media, No documentation (Listings), No support services. Prerequisite: Customer-owned VAX-11/730 CPU.
ZC100-DZ	Single-use license only. No binaries, No documentation (Listings), No support services. Prerequisite: ZC100-CH

Additional Services for VAX System Maintenance

Maintenance Documentation Service (MDS) is **essential** for all VAX customers implementing a self-maintenance program. The service provides hardware maintenance documentation as well as VAX diagnostic listing on microfiche* which provides further diagnostic fault isolation from module to logic path and integrated circuit (IC's). VAX Hardware modifications and system revision level changes are included in the VAX microfiche library. An update service is available that automatically reports the latest changes to the VAX system hardware and diagnostics as released from Engineering. New or updated Diagnostic Listings are issued coincidentally to the release of new or updated diagnostic media.

MDS Ordering Information:

P/N	Description
MD-VAX-00	Hardware maintenance documentation and diagnostic listings documentation
MD-VAX-R	Subscription Update Service for MD-VAX-00
MD-VAX-D	Hardware maintenance documentation
MD-VAX-DR	Subscription Update Service for MD-VAX-D
MD-VAX-L	Diagnostic Listings documentation only
MD-VAX-LR	Subscription Update Service for MD-VAX-L

For more information about VAX diagnostic kits, consult your local Digital representative.

* Only available through the Maintenance Documentation Service.

New Literature From Digital

DEC-O-LOG

DEC-O-LOG is a Field Change Order (FCO) notification service providing a synopsis of hardware changes in the post manufacturing environment. A synopsis of Engineering Change Orders (ECO's), up to the most current FCO release, are included to establish a history of hardware changes to your CPU's peripheral options, subassemblies, and modules. Field Change Order Synopsis contain additional information such as Problem Symptoms, FCO Quick Check, and hardware compatibility. All FCO's are coded with a Level of Urgency (LOU) which assists in planning and scheduling FCO installation.

WHAT YOU GET

With your Initial Subscription you receive a complete DEC-O-LOG family library and a full year of monthly update service. The DEC-O-LOG renewal subscription provides annual update service the second and subsequent years. A revised DEC-O-LOG page is issued with the release of an FCO. At this time the ECO history since the last FCO is updated to the current (new) FCO. The new page is distributed in the monthly update. DEC-O-LOG assists the self maintenance community to determine which FCO's may need to be installed and their impact on performance, reliability and serviceability. Once the determination is made, the appropriate FCO's may be ordered and installation planning and scheduling begun.

DEC-O-LOG is organized by CPU family, i.e., the PDP-11 DEC-O-LOG contains ECO/FCO information on all PDP-11 CPU systems and all attaching peripheral devices and terminals. Other DEC-O-LOG family subscriptions are PDP-8, PDP-9/15, PDP-14, DEC-10/20, VAX, Terminals.

To obtain a copy of the DEC-O-LOG, fill in and cut out the coupon on page 179.

"MDS provides the timely and organized documentation necessary to support your maintenance requirements in a convenient 42X microfiche format."

MAINTENANCE DOCUMENTATION SERVICE (MDS) . . .

. . .for successful maintenance planning and troubleshooting!

There is more to maintaining a computer system than down time situations. The key to successful maintenance programs is planning. This planning involves many aspects of maintenance. You must schedule Preventative Maintenance and be familiar with PM procedures. You must have the reference resources which will allow you to determine which Field Change Orders must be implemented into your hardware for maximum efficiency. You must know which Diagnostic changes may cause compatibility problems with your hardware when troubleshooting or replacing modular subassemblies. Having the proper documentation and knowing where to find it is essential to your maintenance efforts.

Maintenance Documentation Service (MDS)

Before microfiche technology, this volume of information was cumbersome to store, organize and maintain. Updating and distribution of information was often cost prohibitive. With that in mind, Digital developed MDS, a compact, updatable microfiche reference library, designed to assist you in your maintenance and planning efforts.

MDS is a unique comprehensive compilation of maintenance and hardware documentation in an easily accessible 42X microfiche format. A reference library that

contains pertinent information on entire "families" of Digital products, whether you service VAX, PDP-11, terminals or other systems. The MDS library, along with the corresponding Update Subscription Service, gives you complete, current information on any devices which may be utilized within a configuration of that family. Individual libraries are also available specifically for terminal products.

Update Service

A key asset to MDS is its ability to grow as new information is developed. To keep your MDS library current, the corresponding Update Subscription Service gives you monthly updates automatically. You will be informed of any changes which may impact your maintenance operation. In these updates you will be provided with detailed instructions advising you how to file new information and discard obsolete information.

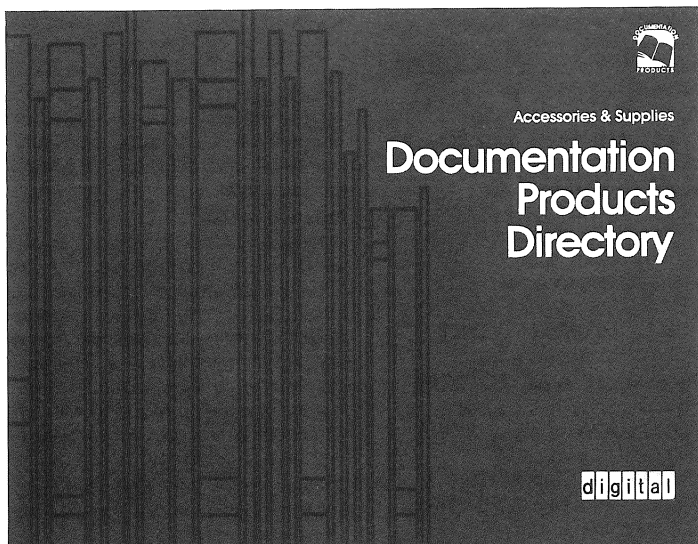

When you order the MDS Library and Update Subscription Service you receive:

- Hardware Manuals
- Illustrated Parts Breakdowns (IPB's)
- Preventative Maintenance (PM) Manuals
- Wire Lists
- Diagnostic Listings
- Diagnostic Change Orders/Patch Orders
- Field Change Order (FCO) Information (documentation only)

Part No.	Description
MD-KI10/QB	Maintenance Doc. and Diag. Listings for DECsystem-10 systems with KA10 or KL10 CPU's (Library only)
MD-KI10-R/QB	Subscription Update Service for MD-KI10
MD-KL10/QB	Maintenance Doc. and Diag. Listings for DEC system-10 Systems with KL 10 CPU (Library only)
MD-KL10-R/QB	Subscription Update Service for MD-KL10
MD-PDP8/QB	Maintenance Doc. and Diag. Listings for PDP8 family of systems (Library only)
MD-PDP8-R/QB	Subscription Update Service for MD-PDP8
MD-PDP11/QB	Maintenance Doc. and Diag. Listings for PDP11 family of systems (Library only)
MD-PDP11-R/QB	Subscription Update Service for MD-PDP-11
MD-PDP11-D/QB	Maintenance Doc. for PDP11 Systems (Library only)
MD-PDP11-DR/QB	Subscription Update Service for MD-PDP11-D
MD-PDP11-L/QB	Diagnostic Listings for PDP11 Systems (Library only)
MD-PDP11-LR/QB	Subscription Update Service for MD-PDP11-L
MD-VAX/QB	Maintenance Doc. and Diag. Listings for VAX Systems (Library only)
MD-VAX-R/QB	Subscription Update Service for MD-VAX
MD-VAX-D/QB	Maintenance Doc. for VAX Systems (Library only)
MD-VAX-DR/QB	Subscription Update Service for MD-VAX-D
MD-VAX-L/QB	Diag. Listings for VAX Systems (Library only)
MD-VAX-LR/QB	Subscription Update Service for MD-VAX-L
MD-LSI11/QB	Maintenance Doc. and Diagnostics for LSI11 Systems (Library only)
MD-LSI11-R/QB	Subscription Update Service for MD-LSI11 Systems
MD-HTERM/QB	Maintenance Doc. for Hardcopy Terminals (Library only)
MD-HTERM-R/QB	Subscription Update Service for MD-HTERM
MD-VTERM/QB	Maintenance Doc. for Video Terminals (Library only)
MD-VTERM-R/QB	Subscription Update Service for MD-VTERM

To obtain more information on Maintenance Documentation Service (MDS), fill in and cut out the coupon on page 179.

New Literature From Digital

Finally! A single reference source of selected Digital hardware and software documentation products. This new directory makes necessary product information readily accessible and it can be used to determine what documentation products are required to support a particular hardware or software option.

The Directory contains:

SOFTWARE DOCUMENTATION PRODUCTS

- Software Documentation Kits
- Source Microfiche Kits
- Software Manuals, Handbooks, Reference Cards

HARDWARE DOCUMENTATION PRODUCTS

- Hardware Manuals
- Maintenance Prints
- Diagnostic Kits

OTHER FEATURES

- Ordering/Pricing Information
- Accessories & Supplies Group Discount Policy
- System Software Organization
- Understanding Digital's Software Numbering Scheme
- Glossary of Software Terms and Abbreviations
- Documentation Index by Ordering Part Number
- Documentation Index by Description

To obtain a copy of the Documentation Products Directory, fill in and cut out the coupon on page 179.

Clip and mail to:

Digital Equipment Corporation
